BONAFIDE CERTIFICATE

Certified that this project report

“Delicious Deliveries: Explore LPU’s Best Eats”

is the bonafide work of “ **KURULU UMA MAHESH**” who carried out the project work under my supervision.

Signature of the Supervisor

Abstract:

The webpage "Delicious Deliveries: Explore LPU's Best Eats" presents a visually engaging guide to the best food delivery options available around Lovely Professional University (LPU). Utilizing a clean and responsive layout built with HTML and styled with CSS, the page emphasizes user-friendly navigation and an attractive interface. Key features include sections highlighting top-rated restaurants, popular cuisines, and student-favorite dishes, each enhanced with appealing images, bold typography, and vibrant color schemes. A dynamic structure allows for seamless viewing on both desktop and mobile devices, ensuring accessibility for all users.

CHAPTER - 1

Introduction To

"Delicious Deliveries: Explore LPU's Best Eats"

Lovely Professional University (LPU) is a vibrant campus filled with students from diverse cultures and backgrounds. With such a large student body, the demand for a variety of dining options is significant. "Delicious Deliveries: Explore LPU's Best Eats" is a project that aims to explore the culinary scene both within and around the LPU campus. From local food vendors to popular restaurants, this project seeks to identify the best eateries that cater to the tastes of students and staff, and evaluate their services, including delivery options.

CHAPTER - 2

Project Overview:

Purpose: The project aims to explore the top food delivery services that cater to the LPU community. It will highlight the most popular eateries, their menus, ratings, affordability, and accessibility, helping students make informed dining choices.

Scope:

- **Restaurants and Cafes:** Identify the best restaurants and cafes in and around the LPU campus that provide online delivery services.
- **Cuisine Variety:** Explore a range of cuisines—Indian, Chinese, continental, fast food, and more—to cater to LPU's diverse student population.
- **Delivery Services:** Evaluate different food delivery platforms such as Zomato, Swiggy, or in-house restaurant services, comparing their speed, reliability, and customer satisfaction.
- **Cost and Value:** Assess the affordability of the food options available to students, keeping in mind their budget constraints.

Key Sections:

- **Restaurant Listings:** A detailed directory of restaurants, complete with reviews, delivery options, and special offers.
- **Popular Dishes and Trends:** Focus on what students are ordering the most—burgers, pizzas, momos, pasta, etc.
- **Healthy and Dietary Options:** Evaluate the availability of healthier alternatives like vegan, vegetarian, and gluten-free options.
- **Food Rankings:** A section ranking the top restaurants and dishes based on quality, affordability, and popularity.

Outcome:

By providing insights into the best food and delivery services available,

The project will serve as a practical resource for students to make better food choices that suit their preferences and budgets.

CHAPTER - 3

Screen Shots OFF Web Page

The "Delicious Deliveries: Explore LPU's Best Eats" webpage boasts a clean, modern interface designed with HTML for structure and CSS for style. Its primary objective is to deliver an intuitive and visually appealing experience for users exploring food delivery options near Lovely Professional University (LPU).

Web Interface Fig -1

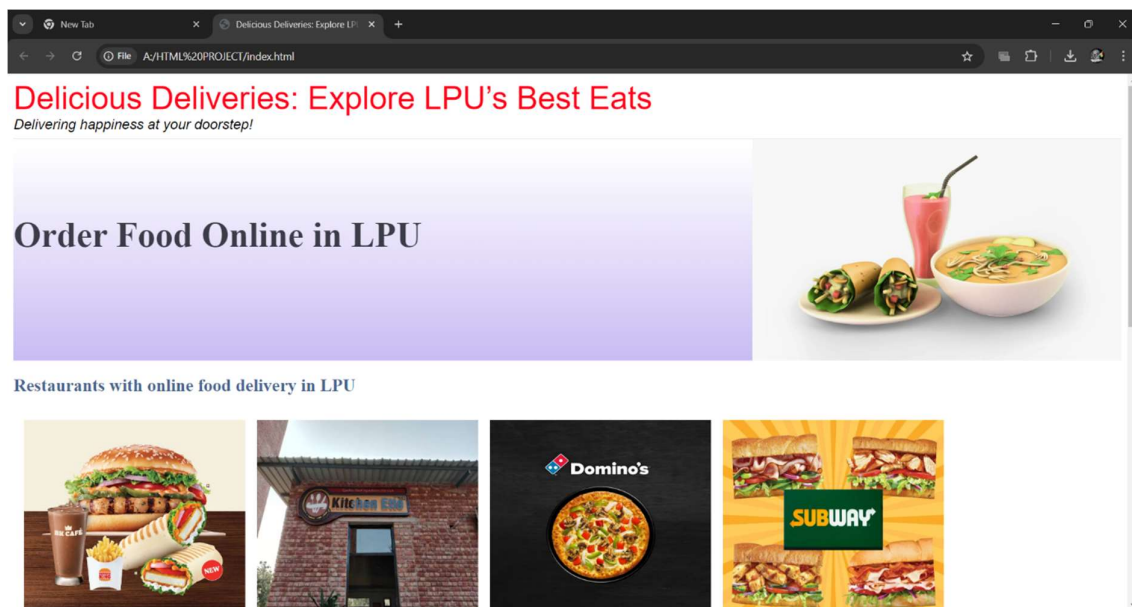

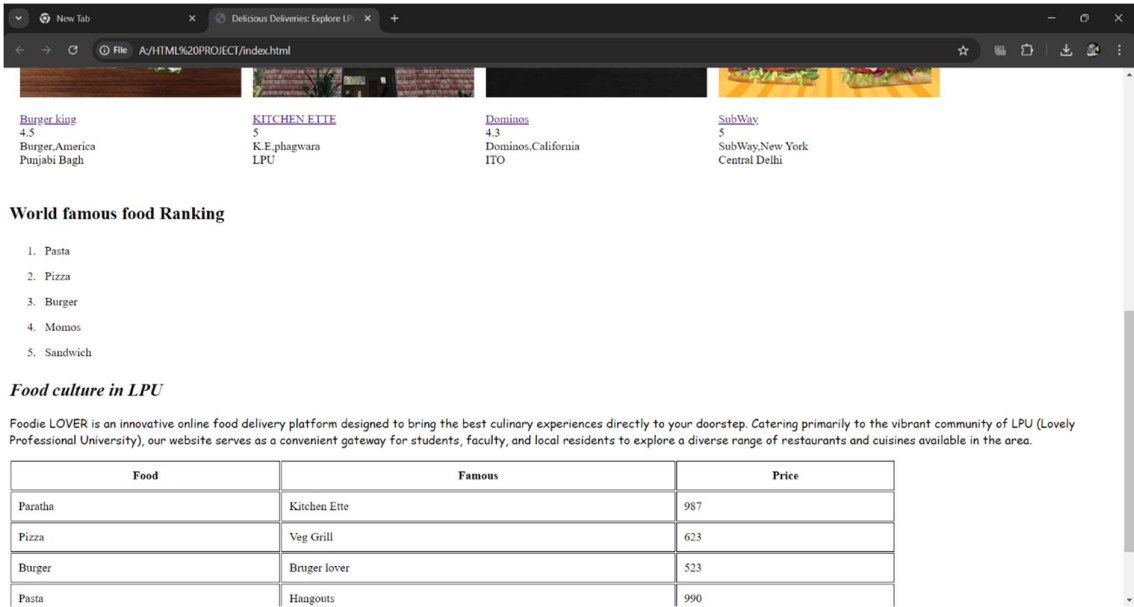

Fig - 2

Burger King Web Interface Fig - 3

The interface allows users to view the full range of menu items, often categorized by meal type (breakfast, lunch, snacks, etc.) or by dietary preference (vegetarian, gluten-free, etc.).

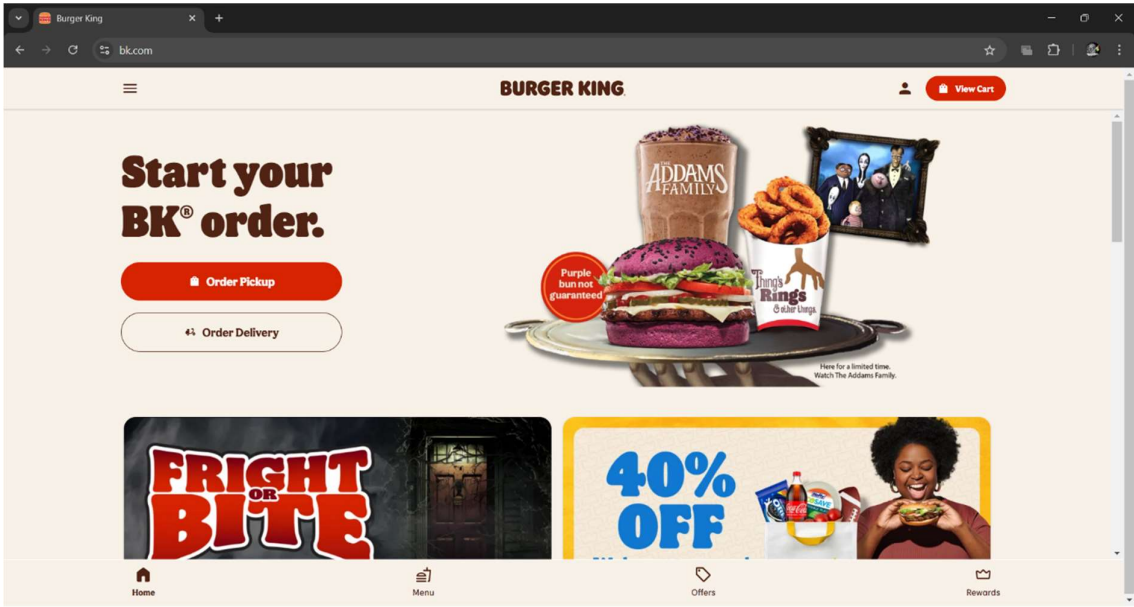

Fig - 4

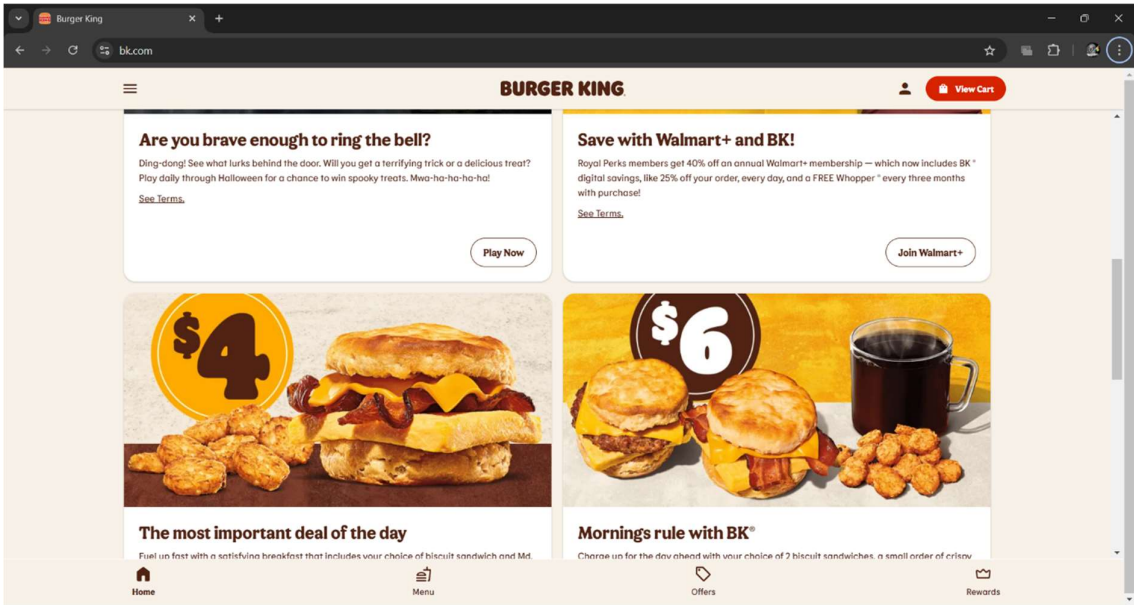

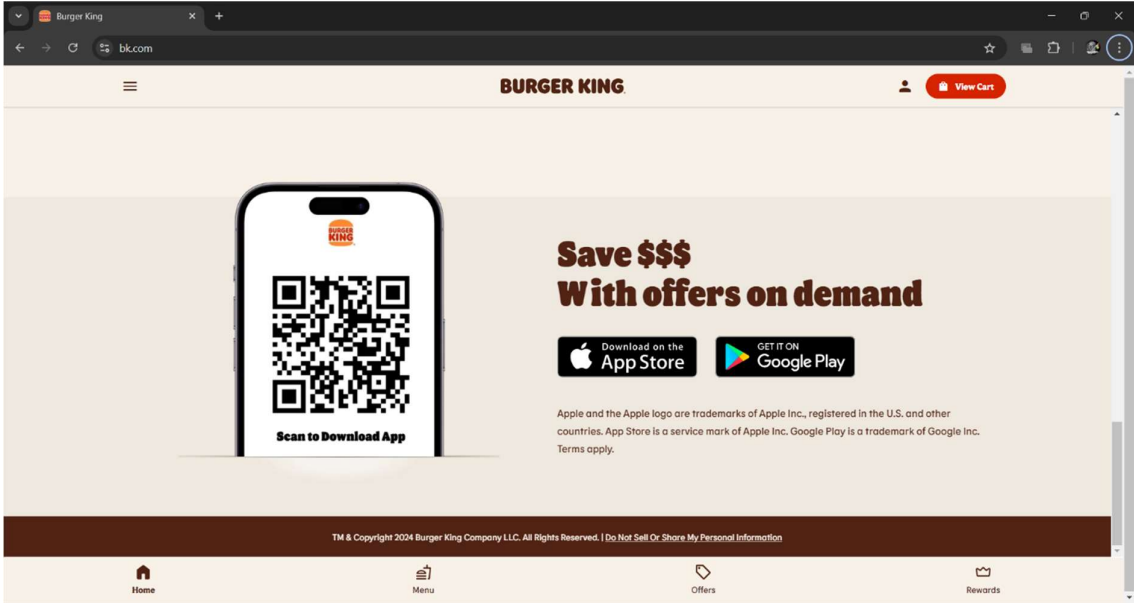

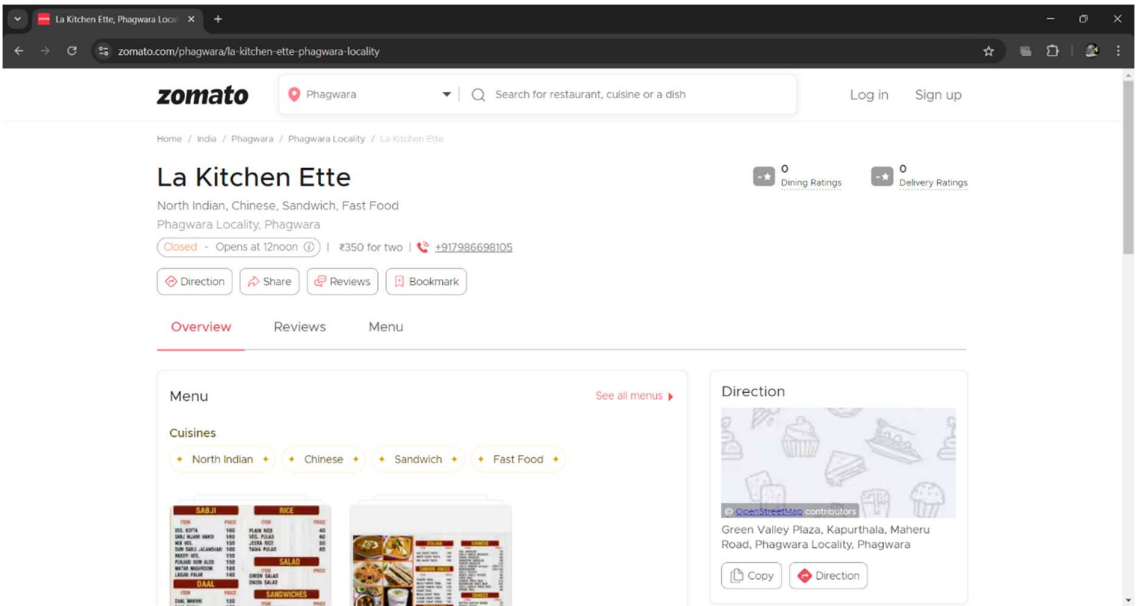

Fig - 5

Kitchen Ette Web Interface Fig - 6

The website allows users to browse through Kitchenette’s menu, including detailed descriptions and high-quality images of dishes. Categories like breakfast, lunch, beverages, and desserts help users easily find their favorite items.

Domino's Web Interface Fig - 7

The Domino's web interface is built with user-friendly navigation, making it easy for customers to browse through menus, customize orders, and complete purchases. Clear navigation bars and organized categories, such as "Pizzas," "Deals," "Sides," and "Drinks," help users find what they need quickly.

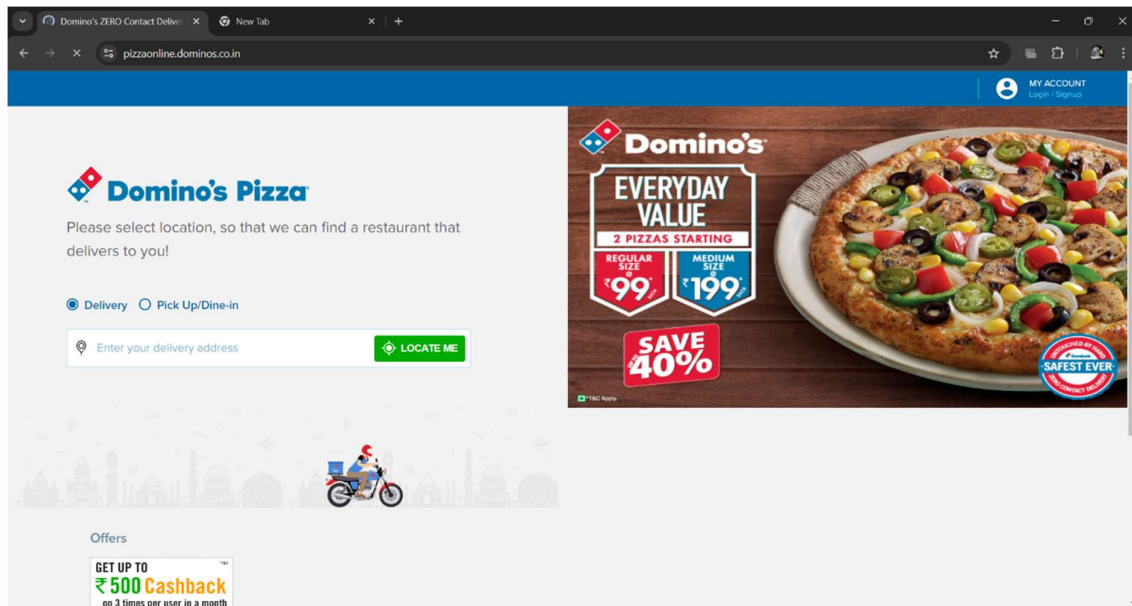

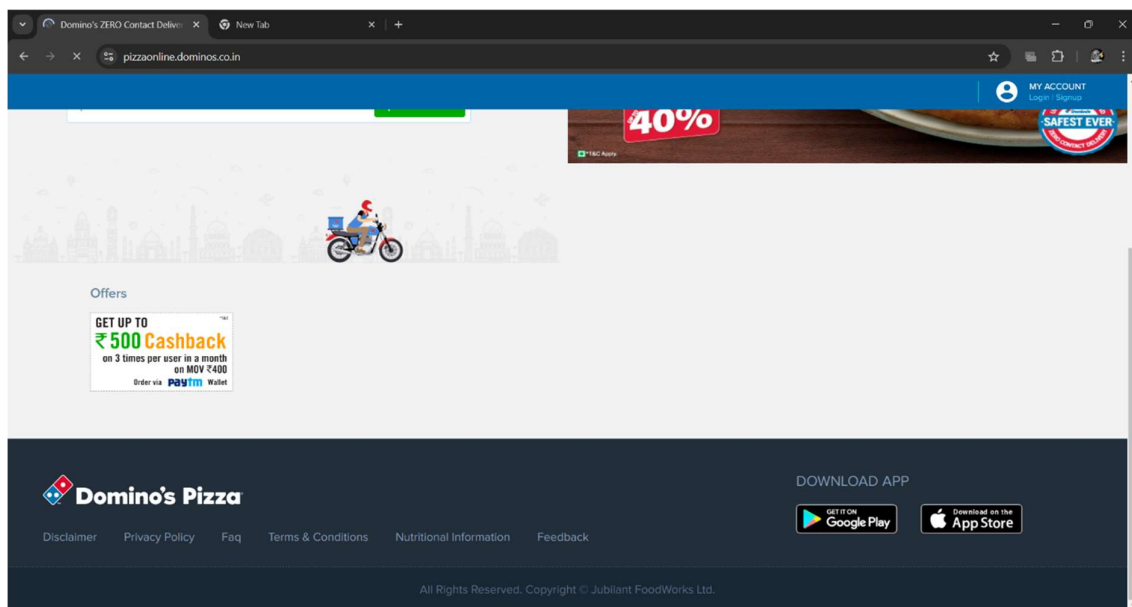

Fig - 8

Subway Wen Interface Fig – 9

The interface features clear categories such as “Subs,” “Salads,” “Wraps,” “Drinks,” and “Sides,” allowing users to browse the full menu effortlessly. Each item is accompanied by detailed descriptions, nutritional information, and images, making it easy for customers to select their meal.
